<http://www.homebrewersassociation.org>

How to Read Your Scoresheet

Left Column:

Judges must give their names and are encouraged to give contact information so that you can respond with praise or constructive criticism to their comments. Please don't expect the judge to remember your beer. Complaints about your score are unlikely to accomplish anything but enmity, but helpful comments that point out objective errors or poor quality of feedback may help the judge to improve in the future.

If you feel that there is a significant problem with the quality of judging you have received, please contact the organizer of the competition and, if the judge has checked a BJCP rank, the BJCP (at the address at the bottom of this sheet). Include copies of the scoresheet and any other relevant information.

The **Judge Qualification** section is fairly self-explanatory. An Apprentice is a judge who has taken but not passed the BJCP exam. A non-BJCP judge has not taken the exam, but may be skilled. Honorary Master is a rank given out by the BJCP for recognition of exceptional service to the BJCP and/or homebrewing community. The other ranks are levels within the BJCP, based on the judge's experience and exam score.

The **Descriptor Definitions** list is used by some judges as a shorthand way to communicate the presence of common beer characteristics. Many, but not all, of these are considered flaws in beer, although some will be a flaw in some styles and desired in others. See the judge's comments on the right side of the sheet for more information.

Right Column

The **Category** and **Subcategory** designation shows the style against which your beer was judged. Most of the score your beer received represents how well the judges felt your beer represented this style. See below for more about scoring and style.

The **Bottle Inspection** is not used in determining your beer's score, but certain clues to potential problems can be gleaned from a bottle inspection. For example, "Ring around the collar," a line of material that appears on the bottle neck at the liquid surface, is sometimes an indicator of contamination, although it can have other causes. This section can also be used for comments about packaging in violation of some contests guidelines such as the use of distinctive bottles or incorrect bottle size.

Most entries into homebrew competitions are in categories that describe a particular style of beer. These styles are usually derived from a commercial beer, or group of similar beers, or a type of beer that is popular among home brewers. The score that is assigned to your beer is an indication of how closely the judge felt your beer matched the characteristics of that style. The style adherence is separated into four sections: **Aroma**, **Appearance**, **Flavor**, and **Mouthfeel**. The judges are looking for the presence and/or absence of various characteristics in each of these four sections, depending on the style. Your beer was scored accordingly.

BJCP Cover Sheet Copyright © 2012 Beer Judge Certification Program rev. 120326

Judges and/or Stewards

Check all score sheets for accuracy and make sure the judge's full name is printed on each one. Attach this cover sheet on top of all score sheets before submitting them to the organizer.

Entry Number

19004

Category # _____ Subcategory (a-f) _____

Ordinal Position in Flight: _____ of _____

This beer advanced to a mini-BOS round

Final Assigned Score

41.6666

At least two judges from the flight in which your beer was entered reached consensus on your final assigned score. It is not necessarily an average of the individual scores.

Place Awarded

1st

In the final section, **Overall Impression**, the judge conveys how enjoyable the beer was and should attempt to offer suggestions for improvement. It may also be used to summarize the judge's feelings on aspects of the beer that don't fit neatly into one of the other four sections. The difference between a very good beer and a world class beer can often be in subtle or intangible details. Likewise, beers with no easily discernible flaws can be lacking in specialness or "magic." This section is used to give such feedback.

The **Scoring Guide** is your guide to understanding the meaning of your total score on the 50 point scale used on this scoresheet.

Outstanding (45-50) – A world class example of the style. A beer with great character and no flaws.

Excellent (38-44) – Beers in this range may have no flaws but may be missing the intangibles for a world class beer.

Very Good (30-37) – Beers in this range may have a minor flaw (technical or stylistic), or may be lacking in balance or complexity.

Good (21-29) – A satisfactory beer that generally fits the style parameters. Scores near the upper end of this range may have only a few minor flaws or be slightly out of style and also may be

lacking in balance or complexity. Scores near the lower end of this range tend to have more flaws and are likely to have stylistic inconsistencies as well.

Fair (14-20) – This beer has its share of problems that may include missing the style parameters, off flavors and aromas, balance problems, contamination, or other major flaws. Scores near the lower end of this range exhibit more major flaws.

Problematic (0-13) – A beer with a major problem (usually contamination) that overwhelms all other flavors and aromas. Often barely palatable.

In box to the right of the Scoring Guide the judge has reiterated the feedback given in the five scored sections, breaking it down differently. Your beer has been rated on three scales: **Stylistic Accuracy**, **Technical Merit**, and **Intangibles**. The aroma of Cascade hops in a Bohemian Pilsener would be an example of a problem in **Stylistic Accuracy**. This can be thought of as recipe feedback. Excessive sourness would usually indicate a contamination problem which would be classified under **Technical Merit**. This can be thought of as process feedback. Some characteristics don't fall neatly into one category, for example grassy aromas might be from the type of hop used, or from using oxidized hops. Here the judge has tried to make the best guess for these ratings. **Intangibles** rates the same characteristic discussed above in **Overall Impression**. The checkboxes also give the entrant an overview of the beer's evaluation. By filling out the checkboxes, the judge is encouraged to think about the beer as a whole after the words are written and may also help justify the final score.

The Beer Judge Certification Program

The BJCP is the only body in North America that tests and certifies beer judges. The BJCP is a not-for-profit organization, and BJCP judges do not charge for their services. Contact the BJCP at: Comp_Director@BJCP.org.

 Certified Cicerone Master Cicerone
 Sensory Training Other _____

Descriptor Definitions (Mark all that apply):

- Acetaldehyde** – Green apple-like aroma and flavor.
 Alcoholic – The aroma, flavor, and warming effect of ethanol and higher alcohols. Sometimes described as *hot*.
 Astringent – Puckering, lingering harshness and/or dryness in the finish/aftertaste; harsh graininess; huskiness.
 Diacetyl – Artificial butter, butterscotch, or toffee aroma and flavor. Sometimes perceived as a slickness on the tongue.
 DMS (dimethyl sulfide) – At low levels a sweet, cooked or canned corn-like aroma and flavor.
 Estery – Aroma and/or flavor of any ester (fruits, fruit flavorings, or roses).
 Grassy – Aroma/flavor of fresh-cut grass or green leaves.
 Light-Struck – Similar to the aroma of a skunk.
 Metallic – Tinny, coin, copper, iron, or blood-like flavor.
 Musty – Stale, musty, or moldy aromas/flavors.
 Oxidized – Any one or combination of stale, winy/vinous, cardboard, papery, or sherry-like aromas and flavors.
 Phenolic – Spicy (clove, pepper), smoky, plastic, plastic adhesive strip, and/or medicinal (chlorophenolic).
 Solvent – Aromas and flavors of higher alcohols (fusel alcohols). Similar to acetone or lacquer thinner aromas.
 Sour/Acidic – Tartness in aroma and flavor. Can be sharp and clean (lactic acid), or vinegar-like (acetic acid).
 Sulfur – The aroma of rotten eggs or burning matches.
 Vegetal – Cooked, canned, or rotten vegetable aroma and flavor (cabbage, onion, celery, asparagus, etc.)
 Yeasty – A bread, sulfury or yeast-like aroma or flavor.

Bottle Inspection: Appropriate size, cap, fill level, label removal, etc.

Comments Fill on the high side. Bottle Gon?

Aroma (as appropriate for style) 10 /12

Comment on malt, hops, esters, and other aromatics
By complex malt aromas of caramel, melanoidins and dark fruit esters. Hop are non-acidic and no off flavors of diacetyl et al.

Appearance (as appropriate for style) 3 /3

Comment on color, clarity, and head (retention, color, and texture)
Keep amber with some highlights. Very clear beer with a small off white head of tiny fine bubbles which recede to the rim. Long lasting lugs as well.

Flavor (as appropriate for style) 16 /20

Comment on malt, hops, fermentation characteristics, balance, finish/aftertaste, and other flavor characteristics
In my taste malt: light caramel malasses plays well with caramel and dark hops. Hop are in balancing supporting role. Alcohol is present and malt > hop balance, finish is long and warm from the alcohol and a small coating on the palate.

Mouthfeel (as appropriate for style) 4 /5

Comment on body, carbonation, warmth, creaminess, astringency, and other palate sensations
Heavy viscous body that's a chewy mouth. Medium carbonation and very warming down the throat. Creamy beer with a slight bite.

Overall Impression 8 /10

Comment on overall drinking pleasure associated with entry, give suggestions for improvement
Excellent beer, complex body follows a complex nose. Alcohol is especially present, possible to turn down a bit by slowly. Sulfur-like tones a bit lower to achieve some of the warmth.
Will age very very well.

Total 41 /50

SCORING GUIDE	Outstanding (45 - 50): World-class example of style.
	Excellent (38 - 44): Exemplifies style well, requires minor fine-tuning.
	Very Good (30 - 37): Generally within style parameters, some minor flaws.
	Good (21 - 29): Misses the mark on style and/or minor flaws.
	Fair (14 - 20): Off flavors/aromas or major style deficiencies. Unpleasant.
	Problematic (00 - 13): Major off flavors and aromas dominate. Hard to drink.

Aroma (as appropriate for style)

Comment on malt, hops, esters, and other aromatics 10 / 12

DEEP, RICH AROMAS OF STewed FRUITS AND MOLASSES.
LIGHT PORTWINEY ALCOHOL NOTE. NO OBVIOUS LAPS,
NO DIACETYL. MODERATE VINOUS PORT NOTES.

Appearance (as appropriate for style)

Comment on color, clarity, and head (retention, color, and texture) 3 / 3

DARK CHERRYBROWN COLOR, VERY CLEAR. FINE PALE-
TAN HEAD FALLS IMMEDIATELY

Flavor (as appropriate for style)

Comment on malt, hops, fermentation characteristics, balance, finish/aftertaste, and other flavor characteristics 18 / 20

VERY RICH COMPLEX MALT w/ NOTES OF CARAMEL,
NUTS, TREACLE, BREAD CRUST. FRUIT NOTES OF
FIGS AND STewed FRUITS. MODERATE BALANCING BITTERNESS
NO TOP FLAVORS. HIGH NOTES OF VINOUS OXIDATION
REALLY REMINDS ONE OF TAWNY PORT. FINISHES QUITE
SWEET

Mouthfeel (as appropriate for style)

Comment on body, carbonation, warmth, creaminess, astringency, and other palate sensations 5 / 5

THICK BODY w/ MODERATE CARB. MODERATE
WARMTH, NOT ASTRINGENT

Overall Impression

Comment on overall drinking pleasure associated with entry, give suggestions for improvement 8 / 10

BIG, EXTREMELY RICH NO COMPLEX BEER, MIGHT
EVEN BE A BIT TOO MALT GOING ON FOR AN
OLD ALE! HOWEVER, IT'S VERY GOOD! MIGHT
DO WELL AS AN EMBLISH BLENDED WINE, TOO.
CERTAINLY AT THE TOP OF THE OLD ALE
RADGER

- Yeasty – A bread, sulfury or yeast-like aroma or flavor.

Aroma (as appropriate for style) 10 /12

Comment on malt, hops, esters, and other aromatics
Instant malty sweetness w/ pleasant fruity esters. Some caramel, toffee, and molasses supporting overall malt. Some port qualities evident

Appearance (as appropriate for style) 2 /3

Comment on color, clarity, and head (retention, color, and texture)
Light coppery brown. Very clear w/ no head. Legs evident when tipped due to high alcohol.

Flavor (as appropriate for style) 16 /20

Comment on malt, hops, fermentation characteristics, balance, finish/aftertaste, and other flavor characteristics
Strong malty sweetness w/ dark dried fruit character. Some toasty nutty notes. Def. has port character but very pleasant. Some hop bitterness present w/ balance towards malt

Mouthfeel (as appropriate for style) 4 /5

Comment on body, carbonation, warmth, creaminess, astringency, and other palate sensations
Full body w/ low carbonation. Some alcohol warmth but pleasant. Finishes pretty dry

Overall Impression 8 /10

Comment on overall drinking pleasure associated with entry, give suggestions for improvement
Overall, I thought it was very good. The fruitiness seemed a little too much so maybe lowering fermentation temp to reduce the fruit just a tad and help w/ the warmth. Keep up the good work

Total 40 /50
