## How to Read Your Scoresheet

### Left Column:

Judges must give their names and are encouraged to give contact information so that you can respond with praise or constructive criticism to their comments. Please don't expect the judge to remember your beer. Complaints about your score are unlikely to accomplish anything but enmity, but helpful comments that point out objective errors or poor quality of feedback may help the judge to improve in the future.

If you feel that there is a significant problem with the quality of judging you have received, please contact the organizer of the competition and, if the judge has checked a BJCP rank, the BJCP (at the address at the bottom of this sheet). Include copies of the scoresheet and any other relevant information.

The **Judge Qualification** section is fairly self-explanatory. An Apprentice is a judge who has taken but not passed the BJCP exam. A non-BJCP judge has not taken the exam, but may be skilled. Honorary Master is a rank given out by the BJCP for recognition of exceptional service to the BJCP and/or homebrewing community. The other ranks are levels within the BJCP, based on the judge's experience and exam score.

The **Descriptor Definitions** list is used by some judges as a shorthand way to communicate the presence of common beer characteristics. Many, but not all, of these are considered flaws in beer, although some will be a flaw in some styles and desired in others. See the judge's comments on the right side of the sheet for more information.

### Right Column

The **Category** and **Subcategory** designation shows the style against which your beer was judged. Most of the score your beer received represents how well the judges felt your beer represented this style. See below for more about scoring and style.

The **Bottle Inspection** is not used in determining your beer's score, but certain clues to potential problems can be gleaned from a bottle inspection. For example, "Ring around the collar," a line of material that appears on the bottle neck at the liquid surface, is sometimes an indicator of contamination, although it can have other causes. This section can also be used for comments about packaging in violation of some contests guidelines such as the use of distinctive bottles or incorrect bottle size.

Most entries into homebrew competitions are in categories that describe a particular style of beer. These styles are usually derived from a commercial beer, or group of similar beers, or a type of beer that is popular among home brewers. The score that is assigned to your beer is an indication of how closely the judge felt your beer matched the characteristics of that style. The style adherence is separated into four sections: **Aroma**, **Appearance**, **Flavor**, and **Mouthfeel**. The judges are looking for the presence and/or absence of various characteristics in each of these four sections, depending on the style. Your beer was scored accordingly.

BJCP Cover Sheet Copyright © 2009 Beer Judge Certification Program rev. 091023

## Judges and/or Stewards

Check all score sheets for accuracy and make sure the judge's full name is printed on each one. Attach this cover sheet on top of all score sheets before submitting them to the organizer.

### Entry Number

368

Category # 21 Subcategory (a-f) A

Ordinal Position in Flight: 6 of 13

This beer advanced to a mini-BOS round

### Final Assigned Score

32

At least two judges from the flight in which your beer was entered reached consensus on your final assigned score. It is not necessarily an average of the individual scores.

### Place Awarded

In the final section, **Overall Impression**, the judge conveys how enjoyable the beer was and should attempt to offer suggestions for improvement. It may also be used to summarize the judge's feelings on aspects of the beer that don't fit neatly into one of the other four sections. The difference between a very good beer and a world class beer can often be in subtle or intangible details. Likewise, beers with no easily discernible flaws can be lacking in specialness or "magic." This section is used to give such feedback.

The **Scoring Guide** is your guide to understanding the meaning of your total score on the 50 point scale used on this scoresheet.

**Outstanding (45-50)** – A world class example of the style. A beer with great character and no flaws.

**Excellent (38-44)** – Beers in this range may have no flaws but may be missing the intangibles for a world class beer.

**Very Good (30-37)** – Beers in this range may have a minor flaw (technical or stylistic), or may be lacking in balance or complexity.

**Good (21-29)** – A satisfactory beer that generally fits the style parameters. Scores near the upper end of this range may have only a few minor flaws or be slightly out of style and also may be

lacking in balance or complexity. Scores near the lower end of this range tend to have more flaws and are likely to have stylistic inconsistencies as well.

**Fair (14-20)** – This beer has its share of problems that may include missing the style parameters, off flavors and aromas, balance problems, contamination, or other major flaws. Scores near the lower end of this range exhibit more major flaws.

**Problematic (0-13)** – A beer with a major problem (usually contamination) that overwhelms all other flavors and aromas. Often barely palatable.

In box to the right of the Scoring Guide the judge has reiterated the feedback given in the five scored sections, breaking it down differently. Your beer has been rated on three scales: **Stylistic Accuracy**, **Technical Merit**, and **Intangibles**. The aroma of Cascade hops in a Bohemian Pilsener would be an example of a problem in **Stylistic Accuracy**. This can be thought of as recipe feedback. Excessive sourness would usually indicate a contamination problem which would be classified under **Technical Merit**. This can be thought of as process feedback. Some characteristics don't fall neatly into one category, for example grassy aromas might be from the type of hop used, or from using oxidized hops. Here the judge has tried to make the best guess for these ratings. **Intangibles** rates the same characteristic discussed above in **Overall Impression**. The checkboxes also give the entrant an overview of the beer's evaluation. By filling out the checkboxes, the judge is encouraged to think about the beer as a whole after the words are written and may also help justify the final score.

## The Beer Judge Certification Program

The BJCP is the only body in North America that tests and certifies beer judges. The BJCP is a not-for-profit organization, and BJCP judges do not charge for their services. Contact the BJCP at: [Comp\\_Director@BJCP.org](mailto:Comp_Director@BJCP.org).

Judge N **Brooks, Ryan**  
 Judge E **ryanbrooksnotary@gmail.com**  
 Judge F **G1073**      **Recognized**

Category # 21      Subcategory (a-f) A      Entry # 368

Subcategory (spell out) Spice herb & veg.  
 Special Ingredients: mint P.L.S.

Bottle Inspection:  Appropriate size, cap, fill level, label removal, etc.

Comments bit high on neck

Aroma (as appropriate for style) 7 / 12

Comment on malt, hops, esters, and other aromatics  
huge roast, chocolate, dark bready low  
tea no hop aroma light sweet esters light  
clean mint, woody light brown sugar complexity  
to aroma

Appearance (as appropriate for style) 2 / 3

Comment on color, clarity, and head (retention, color, and texture)  
jet black with super dark rich massive  
head. head leaves moderately fast but clings  
to glass after surging

Flavor (as appropriate for style) 11 / 20

Comment on malt, hops, fermentation characteristics, balance, finish/aftertaste, and other flavor characteristics  
big rich dark malts big roast chocolate  
always moderate esters clean over ripe  
fruit med hop balance mint is detectable  
but not too intense. Esters defined as  
beer warms slight phenolic spice on aftertaste

Mouthfeel (as appropriate for style) 3 / 5

Comment on body, carbonation, warmth, creaminess, astringency, and other palate sensations  
medium high body, great carbonation, slight  
warmth that works for style slight astringency  
on back of tongue.

Overall Impression 7 / 10

Comment on overall drinking pleasure associated with entry, give suggestions for improvement  
good base beer. esters are a bit too  
much as beer warmed, mint is restrained  
and could be a bit higher. Room temp  
could have been too high; beer is in  
balance and works well.

Total 30 / 50

### Judge Qualifications and BJCP Rank:

- Apprentice       Recognized       Certified  
 National       Master       Grand Master  
 Honorary Master       Mead Judge       Cider Judge  
 Professional Brewer       Non-BJCP       Rank Pending

### Descriptor Definitions (Mark all that apply):

- Acetaldehyde – Green apple-like aroma and flavor.  
 Alcoholic – The aroma, flavor, and warming effect of ethanol and higher alcohols. Sometimes described as “hot.”  
 Astringent – Puckering, lingering harshness and/or dryness in the finish/aftertaste; harsh graininess; huskiness.  
 Diacetyl – Artificial butter, butterscotch, or toffee aroma and flavor. Sometimes perceived as a slickness on the tongue.  
 DMS (dimethyl sulfide) – At low levels a sweet, cooked or canned corn-like aroma and flavor.  
 Estery – Aroma and/or flavor of any ester (fruits, fruit flavorings, or roses).  
 Grassy – Aroma/flavor of fresh-cut grass or green leaves.  
 Light-Struck – Similar to the aroma of a skunk.  
 Metallic – Tinny, coin, copper, iron, or blood-like flavor.  
 Musty – Stale, musty, or moldy aromas/flavors.  
 Oxidized – Any one or combination of winy/vinous, cardboard, papery, or sherry-like aromas and flavors.  
 Phenolic – Spicy (clove, pepper), smoky, plastic, plastic adhesive strip, and/or medicinal (chlorophenolic).  
 Solvent – Aromas and flavors of higher alcohols (fusel alcohols). Similar to acetone or lacquer thinner aromas.  
 Sour/Acidic – Tartness in aroma and flavor. Can be sharp and clean (lactic acid), or vinegar-like (acetic acid).  
 Sulfur – The aroma of rotten eggs or burning matches.  
 Vegetal – Cooked, canned, or rotten vegetable aroma and flavor (cabbage, onion, celery, asparagus, etc.)  
 Yeasty – A bready, sulfury or yeast-like aroma or flavor.

Category # 21 Subcategory (a-f) A Entry # 368

Subcategory (spell out) SPICE, HERB, VEG BEER  
Special Ingredients: mint, imperial stout

Bottle Inspection:  Appropriate size, cap, fill level, label removal, etc.

Comments high fill level

Aroma (as appropriate for style) 9 /12

Comment on malt, hops, esters, and other aromatics

dark chocolate fudge, caramel,  
sweet mint, wöcha  
some faint esters with pleasant dried  
fruit prune character

Appearance (as appropriate for style) 3 /3

Comment on color, clarity, and head (retention, color, and texture)

deep black color, creamy tan head  
opaque and thick texture

Flavor (as appropriate for style) 12 /20

Comment on malt, hops, fermentation characteristics, balance, finish/aftertaste and other flavor characteristics

roasty, dark chocolate, coffee flavors  
some dried fruit, prune,  
strong coffee, espresso  
candied mint finish - Thin Mint  
give Scout cookie

Mouthfeel (as appropriate for style) 3 /5

Comment on body, carbonation, warmth, creaminess, astringency, and other palate sensations

med to full body, chewy  
rich texture, gentle alcohol warmth  
creamy, mild astringency

Overall Impression 7 /10

Comment on overall drinking pleasure associated with entry, give suggestions for improvement

Fantastic Aroma - complex, chocolaty -  
love the way the mint integrates,  
flavors good again with terrific  
complexity and balanced mintiness  
would like a bit more body  
great beer! creative and delicious.
